

Nanopublication – Disadvantage, harm, and disrespect: competing accounts of what makes discrimination wrong

by Arnaud Quercy

This is an analytic survey of moral philosophy definitions and arguments about discrimination (disadvantage-because-of-trait, harm, disrespect, expressivism, pluralism); it contains no emitter, wave, ouverture, codex, or cross-modal transliteration of form, so the ideamorphism lens has no vocabulary to test against it.

DECLINED – NO-PURCHASE [1]

PROPOSITIONAL GRID [2]

Read this grid. “Not evaluated” does **not** mean the source has nothing to say about that proposition. It means **the reading did not instruct it**. That is not a result, and it counts in no denominator. A silence, by contrast, is a finding: the reading touched the proposition without concluding, or noted its absence itself.

Not evaluated (37) – P1, P2, P3, P3a, P4, P5, P6, P7, P8, P9, P10, P11, P12, P13, P14, P14a, P14b, P15, P16, P16a, P17, P18, P18a, P19, P19a, P20, P21, P22, P23, P24, P25, P26, P27, P28, P29, P30, P31

Overall verdict: DECLINED:no-purchase – taxonomy of the August 2026 pass, predating the move to relational verdicts. Kept as metadata: the gap between the two forms is data, not residue. This reading’s judgement is in the grid above.

FIRST PASS – KEPT AS WRITTEN

Reading produced by the T50 RSS pass, before the boundary lens. It is reproduced UNCORRECTED. Keeping it is the point: without it, a changed title is just a changed title – with it, what the second pass refused becomes legible.

Title it carried : « Discrimination and the Ricochet Effect of Reframing »

This article on the philosophy of discrimination touches on the ideamorphic concept of the 'ricochet effect'. When the intentional invariant behind an act of discrimination is revealed, it doesn't simply correct the initial

diffraction - it generates a new one. The re-framing creates productive tension, as the receiver's own biases and conditioning are activated in new ways. Discrimination is not just a static phenomenon, but a dynamic process of mutual revelation and transformation.
