

Nanopublication – Ibn Bâjja on the solitary soul's ascent through forms toward union with intellect

by Arnaud Quercy

This is a historical-philological Stanford Encyclopedia entry reconstructing Ibn Bâjja's biography, logic commentaries, and Aristotelian/Neoplatonic doctrine of forms and intellect; its shared vocabulary with the framework (form, idea, intelligible) belongs to a medieval hylomorphic and emanationist system entirely unrelated to the framework's claims about artistic emission, codices, and diffraction in receivers, so there is no actual proposition here for the lens to test.

DECLINED – NO-PURCHASE [1]

PROPOSITIONAL GRID [2]

Read this grid. “Not evaluated” does **not** mean the source has nothing to say about that proposition. It means **the reading did not instruct it**. That is not a result, and it counts in no denominator. A silence, by contrast, is a finding: the reading touched the proposition without concluding, or noted its absence itself.

Not evaluated (37) – P1, P2, P3, P3a, P4, P5, P6, P7, P8, P9, P10, P11, P12, P13, P14, P14a, P14b, P15, P16, P16a, P17, P18, P18a, P19, P19a, P20, P21, P22, P23, P24, P25, P26, P27, P28, P29, P30, P31

Overall verdict: DECLINED:no-purchase – taxonomy of the August 2026 pass, predating the move to relational verdicts. Kept as metadata: the gap between the two forms is data, not residue. This reading’s judgement is in the grid above.
